As my wife, Esperance Loner Hotte, has left my bed and board without just cause, I hereby give notice that I will not be responsible for any debts contracted by her.  
**VICTOR HOTTE**

Witness: L. H. PUTNAM,  
Barrister, Blairmore.

## Representatives of Education

### Department to Visit Blairmore

Word has just been received from the Department of Education, Edmonton, advising the local school board that Mr. J. E. Hodgson, superintendent of consolidated schools, and Mr. Smith, inspector of high schools, would arrive in Blairmore on Tuesday morning to confer with the local district school boards, mine managers and labor organizations on the question of a district high school and better educational facilities for this district.

The departmental representatives will meet the local school boards about 9 a. m., and later will meet the managers or representatives of mining and other industries. In all probability a meeting of union representatives will be called for Wednesday forenoon.

### LATER

Owing to the fact that it will be impossible to meet with the mine managers, the meeting has been postponed to about Wednesday, August the 20th.

### He Slipped One Over

A clergyman who belongs to the L.O.O.F. attended a meeting the other evening. The Noble Grand noticing his presence said:

"I see our reverend brother among us this evening. As this is such an unusual occurrence, I think he will have to be fined five dollars."

The pastor put his hand in his waistcoat pocket and marched up to the desk and put down his little V and made a nice little speech in which he told how glad he was to be an Odd Fellow and ended by inviting them to come and hear him preach the next Sunday evening.

Someone moved that the lodge accept the invitation, and go in a body to their brother's church, which was unanimously carried. The next Sunday evening the front pews of the church were filled with Odd Fellows, and when the minister reached the offering he said:

"I am delighted to see so many of our brother Odd Fellows here this evening, but as it is such an unusual occurrence with the most of them, I think they should each be assessed one dollar."

The plate was a caution. The contribution was much heavier than usual and the boys voted their reverend brother all right.—West ern Odd Fellow.

### To Save An Editor

Here is a minister who appreciates the editor. At a recent editorial convention he offered the following toast: "To save an editor from starvation, take his paper and pay for it promptly. To save him from bankruptcy, advertise in his paper liberally. To save him from despair, send him every item of news of which you can get hold. To save him from mistakes, bury him. Dead people are the only ones who never make mistakes."

### Local and General

Commerce miners voted 46 for and 6 against the C.B.U.

Miss Grace Crawford is home from Calgary for the holidays.

C. J. Tompkins has returned to Frank from a visit to Nova Scotia.

The Prince of Wales will land in Newfoundland on Tuesday next.

The Commercial Travellers will hold a convention at Lethbridge on August the 23rd.

The death of Private Edward Brown Thompson, of Cowley, occurred at Calgary yesterday.

Capt. Hoy expects to make the return trip from Calgary to Vancouver in ten hours.

In the absence of Secretary Wright, Mayor Ewan is looking after the affairs of the secretary's office.

Fernie people were very much disappointed this afternoon because Capt. Hoy passed up that town by cruising direct over Coal Creek.

The net proceeds of Peace Day celebration at Lethbridge, amounting to over \$2,000, have been handed over to the Lethbridge Veteran's Club.

The British dirigible R. 33, sister ship of the R. 34, which recently completed a round trip across the Atlantic, will shortly start from England for India.

The Hon William MacKenzie King has been chosen as the new Liberal leader. He was born in Kitchener, Ontario, and until recently has filled the post of Minister of Labor.

The profiteer who buries his profits in Victory Bonds escapes taxation, while the soldier's widow, who has invested her savings in Victory Bonds has the amount of income from her investment deducted from her pension.

## Summer Dress Goods

NOTARY PUBLIC  
(Established 1908)  
CRESTON, B. C.

### LOST.

Reward of \$10 for finding and delivery of one sorrel mare and one bay horse. Strayed from Coleman about July 15th. Branded on right jaw "H. W." Last heard of horses they were in the Pincher district and came originally from Granum. — H. Wain, Coleman, Alta.

### FOR SALE.

Three-speed 1918 model "Indian" motor cycle, with side car. In good condition. Price for cash, \$385. Apply to R. W. Gosden, Hillcrest.

### FOR SALE

Second-hand Chevrolet Touring Car, 1917 model, in first-class condition. A sacrifice for cash. Apply P. O. Box 109, or phone 187, Coleman.

Chautauqua Aug 12 to 18

## Britain's Expenses Reach Huge Total

London. — A question asked in the house of commons brought forth a statement from J. Austen Chamberlain, chancellor of the exchequer, that the average expenditure of the country during the period from April 1 to July 26, was nearly £4,500,000 daily.

Sir Laming Worthington Evans, minister of pensions, in giving the house an explanation on the pension situation, said that at the present rate the pensions would amount to £36,000,000 sterling in a full year. Sir Laming announced a new scale of pensions for totally disabled single men of 40 shillings weekly, and for married men, 50 shillings weekly, being an increase respectively of 7 and 17 shillings on the previous scale. Proportionate increases, Sir Laming declared, were to be given for children, widows and other dependents of soldiers.

### Norway May Have Spitzbergen

Russia Is Willing That Spitzbergen in Arctic Be Given to Neutrals.

Paris. — The Russian political commission in Paris has advised the peace conference which is considering the disposition of the Spitzbergen Archipelago, which lies in the Arctic ocean between Franz Josefland and Greenland, that the Russians are willing to have Spitzbergen given to Norway. The belief is expressed by the Russians, however, that it will be necessary to have an international convention for the purpose of protecting the rights of persons of various nations having property there.

### London Cheered Great Dirigible

London. — The giant British dirigible R-34, which landed at Pulham (Norfolk) on July 13, after making the first, trans-Atlantic dirigible flight, left there for East Fortune, Scotland, the point from which it started for the United States.

The R-34, which left London at a low altitude during the trip, and was seen and cheered by excited crowds

### To Save German Navy

Ready to Be Salvaged from Deep Sea Says British First Lord of Admiralty.

London. — The battleship, three light cruisers and fifteen destroyers of the former German grand navy, which were scuttled by their crews at Scapa Flow in the Orkney islands on June 22, are ready to be salvaged, it was said in the house of commons by Walter Hume Long, first lord of the admiralty.

Mr. Long said work was proceeding on three other destroyers. He said there was no intention of holding a court of enquiry.

### American Record for Aerial Height

Minneapolis. — Although failing to establish a world's altitude record, Ronald Rohl, civilian aviator, flying a Curtiss "wasp biplane," set a new American mark when, in an official flight from Roosevelt Field, he reached a height of 30,700 feet, according to the figures on his barograph. The world's record is 35,136 feet, made by Adjutant Canale, of the French army in a flight from Villa Coublay last June.

### Peace Proposals Not Given Lenine

London. — Assertions by Liberal papers that Sir Phillip Kerr, secretary to Premier Lloyd George, had given a memorandum of peace proposals to the Bolsheviks, Premier Lenine, to Wm. C. Bullitt, attached to the United States peace delegation were answered in the house of commons by Andrew Bonar Law, government leader, with a denial.

Mr. Bonar Law said that Mr. Lloyd George did not know of Bullitt's mission to Russia until Bullitt returned and he denied that the British premier had given Bullitt any such memorandum.

If you can't do anything else, you can at least keep out of the other fellow's way.

## Government Plan For Marketing Crop

Ottawa. — The government has finally determined its policy in regard to this year's wheat crop. The main features of the plan are:

1. A board to buy and market the crop of 1919.
2. A cash payment on account to be made to the farmer at the time he sells his wheat.
3. The wheat crop of Canada to be sold by the board at the prevailing world prices, and the surplus proceeds, after expenses are deducted, to be distributed to the original seller of the wheat in proportion to grade and quantity.

4. No speculation on exchanges of profiteering by handlers of the wheat crop of 1919 to the disadvantage of either producer or consumer.

5. A direct and immediate cash sale by the farmer and a speedy movement of the crop along the usual channels of transport.

The personnel of the board will be made known very shortly, as also will the initial cash payment to be made on account to the farmer at the time of the sale of his wheat.

The official statement reads: The peculiar conditions of the wheat market in Europe and the U.S. where government agencies are almost exclusively employed and where government credits have to be provided for the purchase of wheat, rendered it necessary to provide a similar agency in Canada, or to run the risk of being faced with an absence of adequate cash markets for Canadian wheat and a speedy and uniform movement of the same.

The government, after very careful enquiry and consideration, has therefore decided to appoint a board of experienced men invested with adequate powers to conduct the purchase and sale of the Canadian wheat crop of 1919, both for export and domestic purposes.

An additional cash payment by way of advance will be made by the board to the farmers for each bushel sold, based on the price of No. 1 northern at Fort William. At the conclusion of the season's sales, after the deduction of necessary expenses, the total excess realized over and above the first payment made to the farmers will be divided among the original

### Tornado Swept New Brunswick

Considerable Damage Done to Buildings and Wire Service by Wind.

Frederickton, N.B. — Considerable damage has been done by an electrical storm and wind, which swept over New Brunswick and reached the proportions of a tornado.

In Carleton county, by Florenceville and Centerville, eleven barns were razed by the tornado, while at East Florence, the warehouse of R. F. Smith and Company, Limited, a building about 100 feet in length was smashed and blown to bits. Fifteen or twenty trees in its path were uprooted and telegraph, telephone and electric light poles were blown over by the tornado, which swept over a territory about a quarter of a mile in width and carried everything before it.

In a number of cases it is declared that loaded hay wagons which had been left standing in barns with the doors open, were lifted bodily and carried along by the tornado. The wagons being smashed and the hay scattered about.

### Marshal Foch Welcomed

Gathering in London to Honor Great French General and Present Sword.

London. — Marshal Foch was given a most enthusiastic welcome by the city of London when, accompanied by General Weygand and other distinguished French generals, he drove in the state carriage from the Carlton hotel to the Guildhall to receive the honorary freedom of the city. The streets were gaily decorated with loud and prolonged cheering and the playing of the Marseillaise when he entered the Guildhall, where a large and distinguished company, including Prince Arthur of Connaught, General Sir Henry Wilson, Field Marshal Haig, Sir Henry Wood, Right Hon. Winston Churchill, Right Hon. Messrs. Long and Barnes, and other members of the government were assembled.

The address conferring the freedom of the city described General Foch as a heroic general, a model for generations of soldiers, and paid tribute to his brilliant part in the war, his stern sense of duty, patriotism and supreme knowledge of the science of war.

Acknowledging the freedom of the city and the sword of honor, Marshal Foch, speaking in French, paid a great tribute to the valor of the British soldiers, the skill of the British generals, especially General Haig, and also the wonderful work of the industrial classes of Britain in providing the allies with abundant guns and munitions.

Dealing with the great German offensive of 1918, he remarked that the British armies, though very exhausted, fought as brilliant a rearguard action as had ever been fought (Cheers).

He paid eloquent tribute to the magnificent qualities of the British and Dominion armies in the great counter-attack after August 8, 1918, and said that their dash and bravery were unsurpassable. They never stopped smashing the German war machine and would have gone through the Meuse or the Rhine but for the armistice. (Loud cheers.)

### Congress Is Peeved

Say Treaty With France Calls On U.S. to Step in Without Their Consent.

Washington. — The peace treaty with Germany was discussed by President Wilson with four more Republican senators, all of them understood to be unwilling to accept the League of Nations in its present form.

Both the senate and the committee had recessed over today and many senators went over for the first time the official text of the treaty with France, submitted for ratification by President Wilson. Although most of them reserved judgment, it became apparent that the treaty's ratification would be bitterly contested.

Two objections about which debate is expected to centre are, first, the treaty departs from the tradition of no entangling alliances, and that it violates the constitutional provision that congress alone can declare war. Those who base their opposition on the latter ground declare that by promise to go to the aid of France, immediately in case of an unprovoked attack on her, from Germany, all future congresses would be deprived of their power to decide for war or peace whenever the treaty terms were invoked.

W. N. U. 1275

### Proof Of Seditions Conspiracy

Letters Seized During Police Raid In Western Canada.

Winnipeg. — The Calgary Labor convention last March, at which the One Big Union was given form, was packed with "reds," as the members of the Socialist party of Canada are known in labor.

An official of the United Mine Workers of America, in a letter suggested that "the only way we will ever get anywhere by the use of force, and that the time is coming when there will be riots and petty little revolutions here and there all over the country. In mentioning the proposed demonstration in Toronto of 10,000 unemployed the writer said he thought that if these things could be organized to start in every town, city and village at one time, with a single object in view, taking over the reins of government, "we would arrive all right."

R. B. Russell saw in the coming unemployment situation a "glorious opportunity to show the 'plug' that the only solution to the question is the situation in Russia."

A veritable flood of propaganda, including distribution of banned literature on Socialism and Bolshevism, was distributed by R. B. Russell and other members of the Socialist Party of Canada.

This is the substance of letters seized by the R.N.W.M.P. in Vancouver, Edmonton, Calgary and Winnipeg and read in court at the preliminary hearing of eight labor leaders for seditious conspiracy.

### Race Riots In Chicago

State Troops Established a Barred Zone About Three Miles Square.

Chicago. — Chicago streets are being patrolled by soldiers called out by Governor Lowden at the request of Mayor Thompson for the protection of life and property threatened by the race war, which for some days has terrorized the city.

The state troops established a barred zone about three miles square, embracing most of the colored residential district on the south side. In this zone they searched every person whom they met for weapons. No one could pass in or out without military permission. The district extended from the city hall to the south, and from Michigan boulevard to West Broadway, east and west. This happened when riots in the colored district itself had somewhat subsided, when there was an alarm spread of disturbances outside. New York Central railroad officials reported all their trains being fired on.

Adjutant General Dickson, after an early evening trip through the threatened district, declared the situation was ominous, and his view was shared by the mayor's secretary, who accompanied him.

Hundreds of negroes appealed for protection. Incendiary attacks upon negro homes increased through the day and night. Negro leaders declared that many members of their race had faced starvation because drivers of supply wagons feared to enter some parts of the black belt.

### Demand For Harvest Help

Government Agent Says Men Hang Back From Harvest Work For Higher Pay.

Winnipeg. — Too many unemployed men hanging back in the hope of getting \$2 a day for harvest work, and having to work only two-thirds of the time for their money, was the declaration of J. A. Bowman, superintendent for the province of the employment service of Canada, when he expressed the question of farm help. He expressed the belief that the \$2 mark would not be approached, and added:

"If any relief assistance is offered next winter the first question should be, 'Did you respond to the appeal for farm help?' He added that returned men were prominent among the workers being sent to farms by the department.

Crop failures in parts of Saskatchewan have released men for work in Manitoba, said Mr. Bowman. On Thursday he was completing arrangements for the distribution of 400 to 600 men for that province. Approximately 10,000 workers are required for the harvest fields of Manitoba and Saskatchewan.

### Victory Loan Success

London. — The recent British victory loan scheme amounted to £267,800,000, it was announced in the house of commons by J. Austen Chamberlain, chancellor of the exchequer. This exceeds the amount previously announced by £29,800,000.

Thoughts travel fast, but some people's thoughts never travel far.

## Industrial Unrest Menaces Britain

### Bulgarians Seek Easy Terms

Hope That the Way May Be Made Pleasant for Them.

Sofia, Bulgaria. — An atmosphere of uneasiness and uncertainty is discernible here with regard to the outcome of the mission in Paris of the Bulgarian peace delegates. Bulgaria's claims to the Dobruja and her aspirations as to Macedonia are still to the fore in discussion of the peace terms, and despite the hints of possible territorial losses, which have caused concern and brought out some bitter comment, there appears to be a general hope that justice, as it is viewed here, will be done Bulgaria in this respect, and that the questions at issue will be determined independently of her participation in the war of the side opposed to the allies.

Prominent spokesmen among the Bulgarians having given expression of strong desires to see peace brought about through the visit of the mission to Paris, together with the hope, as one of them said, that the terms would be "something that we can swallow." In these expressions both Great Britain and the United States are alluded to as friendly, but the belief in this friendship is varied with less certainty than previously. Utterances indicating dislike of the French are freely heard in the capital, which may be explained as due to the presence of French colonial troops there.

### Yorkshire Miners Ignore Leaders

For the Moment the Deadline Is Complete.

London. — Failure of the attempt made at Leeds in a conference of coal miners and their employers to end the coal strike, which has been in progress for some time, caused surprise and disappointment. The leaders of the miners refused to accept the government's formula to bring an end to the controversy or to be bound by the action of the Ministry of Education declaring in favor of a return to work.

Therefore, for the moment, the deadline is complete. No arrangement has been made for the resumption of the conference as far as is known and the outlook is regarded as serious.

### French Bond Sale

Amount of Issue in View Totals \$500,000,000.

Paris. — Louis Klotz, the minister of finance, has just concluded an arrangement with a group of United States bankers headed by J. P. Morgan and company for the sale in New York market of French treasury bonds at sixty and ninety days similar to the British bond now on the market.

The amount of the issue in view at present totals \$500,000,000. The United States treasury department, it is said, was consulted regarding the arrangement and gave its consent to it.

U.S. Submarine and Two Men Lost. New London, Conn. — The U.S. submarine G-2, which is listed as an obsolete craft and used for experimental work, sank with open hatches in Long Island Sound, off Pleasure beach in Waterford Bay and two of its crew of eight were drowned. The other members of the crew, all of which were from the submarine base here, were rescued.

## Peace Will Be Ratified This Month

### Germans Buying Copper

New York. — Moderate quantities of refined copper have been bought for German manufacturing interests, one of the leading selling agencies here announced. Shipments have already been made and are expected to assume larger proportions. The financial arrangement connected with the purchase of the metal are not disclosed.

### Women Get Vote

Helena, Mont. — The Montana state senate has ratified the universal suffrage amendment to the constitution by a vote of 38 to 1. The house unanimously ratified the amendment.

London. — General industrial unrest in Great Britain, which has been settling ever since the armistice reached at the present hour, has attained a point which menaces the commerce of the country with at least temporary disaster. It is considered possible that it may mean the downfall of the Lloyd George government.

An immediate strike of the London police was decided on tonight at a mass meeting held in various places. The grievance of the police is the bill before parliament reorganizing the department. This provides for the organization of a police union, but prohibits it from affiliating with labor unions and prohibits policemen from going out on strike under any circumstances, with heavy penalties.

The strikes of the past month have been serious enough, but they are merely symptomatic of the dissatisfaction which appears to prevail throughout the ranks of organized labor. Half a million Lancashire cotton operatives were idle for more than three weeks. Two hundred thousand Yorkshire miners have been on strike since July 20. The Liverpool dockers have paralyzed shipping there for two weeks, holding up hundreds of ships of all sizes. The bakers have decided to strike on Saturday and now the London police are about to go on their second strike.

The worst movement of all from the government standpoint is the threat of "direct action" by the triple alliance of railwaymen, miners and transport workers. These powerful unions are taking a secret ballot to decide whether they shall use the weapon of a general strike to try to enforce their political program of the nationalization of the mines, the railways and to end conscription and withdrawal from all participation in all Russian affairs.

In these circumstances, words of revolution and Bolshevism crop up in newspapers and are used by conservative men to describe the present movement. Some of the newspapers are asking where the money comes from to finance all the propaganda being put forth. The government regards the police strike as the most dangerous feature of the prevalent unrest. It may prove a crucial test of the labor campaign. The home secretary, E. Shortt, has declared that the government is firm and will consider no compromise or yielding to the policemen's demands to have the status of an ordinary labor union.

### New Dominion Loan

Sir Thomas White Says Last Victory Loan Meant Sale of Crops.

Ottawa. — Sir Thomas White states that since September last credits to Great Britain aggregating \$167,000,000 had been furnished by the government for the purchase of last year's wheat crop. In addition about \$25,000,000 had been supplied for the purchase of other foodstuffs and over \$12,000,000 for timber.

It was last year's Victory loan which enabled Canada to grant the extension credits necessary for the purchase of these products, upon whose sale the prosperity of the entire Dominion, agricultural, industrial, commercial and financial, so largely depends. The success of the Dominion loan this fall is regarded as of vital importance to Canada to enable her to meet demobilization expenses and also to provide in part the money for the sale of our wheat and other products.

It isn't the frame that matters; it's the picture within it.

**Summer Chautauqua  
Opens Next Tuesday****Preparations Completed For Big  
Entertainment and Educational  
Function**

To all who attended the Chautauqua held during the past three years this is good news, and to all who never attended, this is your

now while the rush is on, otherwise the single admissions will cost you double.

Chautauqua week promises a musical treat to lovers of music. Twelve programmes will be presented by twenty-four artists. The White Hussars, a combined band and glee club, comprise the big musical feature, and by contrast

Among the lecturers is Lieut. Bruno Rosell, representative of the Italian Government, who will present a brilliant lecture on "Italy's New Place Among the Nations." Glenn Frank, associate editor of the Century Magazine, will lecture on "The New Order and the New Disorder." Dr. William Rader, author and journalist, will dis-

on Hawaii along with the Hawaiian musicians. There will also be an entertainment by Miss Lydia Fennesbeck, dramatic reader and interpreter of plays, and Tom Corwine, polyphonist or initiator of sounds. Then there are the children's morning educational entertainments. Altogether the programme

**Nearest Man On Earth**

Undoubtedly the nearest individual on earth, from a newspaperman's point of view, is the one who subscribes for a paper, receives and reads it for years and then, when requested to settle the subscription account, hands the paper back to the postmaster with "Refused."

**Calgary Stampede to  
Be Best Yet Held**

The pioneer days of the "last best west" in every detail will be reproduced in Calgary from August 23rd to 30th in the greatest victory celebration which will be held in Canada, the Stampede. As this is to be a jubilation in honor of the home-coming of our victorious heroes, the Stampede will take the form of a great reunion of western pioneers of both the Canadian and American west.

In order to carry out the intention to make this the greatest celebration of its kind ever held on the continent, a committee known as the "Big Four", with George Laine chairman, F. Durno, A. E. Cross and Hon. A. J. McLean, has been formed to take charge of the financial end of the undertaking, while E. L. Richardson is acting as treasurer. The general manager is Guy Woodcock, who it will be remembered engineered the eminently successful Stampede held in Calgary during the boom time of 1912.

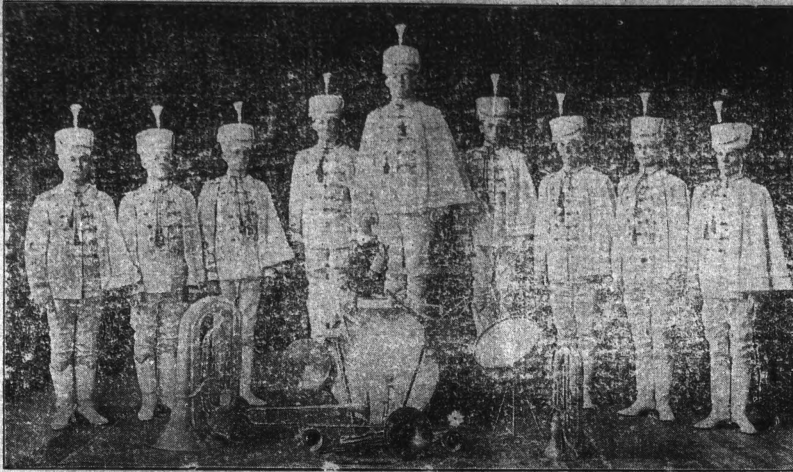

No particular has been neglected to ensure the entire success of the Stampede, special arrangements being made for the accommodation of the thousands of visitors who will throng to Calgary for that week. Agreements have been signed by many hotel and restaurant proprietors guaranteeing that there will be no increase in price to Stampede guests, but that beds and meals will be provided at the regular rates. At the majority of celebrations of this kind out-of-town patrons are charged exorbitant prices for accommodation, but the "Big Four" made this one of the stipulations upon which they would go into the affair, that there should be no "sting" at the Stampede in Calgary. This guarantee was forthcoming and the Kiwanis Club, an organization of prominent business men, has undertaken to conduct an accommodation bureau during Stampede week and will have some of its own members in attendance during the entire six days to take care of outside visitors.

A prize list as extensive as the one being offered in Calgary has never before been offered at a similar celebration, giving, as it does, \$25,000.00 in cash prizes alone for the best riders, ropers and so forth.

An important feature of this Stampede is the fact that all profits will go to the Great War Veterans' Association, the Y. M. C. A. and Salvation Army.

From August 23-30th, Calgary will be the greatest "Cow-town" on the continent and will be the meeting place of the ranchers and city residents from the Atlantic to the Pacific and north and south of the International boundary.

**E. PICK, "The Bottle King"**

The Alberta Hotel,

Blairmore, Alberta

There should be no mystery as to why Chris Columbus stood the egg on end. He was looking for the ham.

Another cause for world unrest has been discovered. A Chicago pessimist attributes it to the passing of the horse and the consequent absence of horse sense.

Conductors of liquor were invented thousands of years before the introduction of conductors of sound.

J. M. Windsor, district manager of the Union Bank, attended a convention of western bankers at Calgary last week.

### No More Bad Eggs

The people of the province are probably not aware that there is in force an important act forbidding trading in bad eggs. This was passed at the last session of the Provincial Legislature and is now in force.

By this measure all people purchasing eggs from producers are obliged to separate the bad from the good eggs and they are forbidden to do business with the bad ones as soon as their condition is found out. This condition is arrived at by candling. The first handler, as he is called in the act, must candle the eggs purchased

METROPOLITAN ARTISTS  
Noted Musical Trio—Fifth Day of Chautauque.

and reject those that are unfit for food.

This is an important protection which the consumer has not had up to the present time. The terms by which these eggs are described in the trade are mouldy eggs, black rots, spot rots, blood rings, mixed rots, added eggs, etc. The producers are likely to profit very greatly by this also as the reputation of the product will be immeasurably raised by the new law. It is estimated that not less than one-sixth of the total annual egg crop is lost by the inclusion of bad and stale eggs in shipments. The condition of these eggs is due to improper care in the first place. Some of the eggs have been kept in too hot a place, there has been some neglect in the gathering of eggs in a good many places, particularly in the country, and the product has been held too long before being sent to market.

Most people have no appreciation of the importance of the egg and poultry output of Alberta. According to the last survey of the poultry industry of the province the value of eggs alone was three million dollars. It will be seen that if the portion usually lost is saved out of this output, without taking account of any increase, it will mean a substantial addition to the wealth of the producers and to the food resources of the consumers in the province. It is the aim of the Department of Agriculture to establish a standard in eggs such as has been established in butter, and it is expected that the same result in a desirable export trade will be secured in the case of eggs as has been secured for butter. The en-

### What A Woman Can Do

She can come to a decision without the slightest trouble of reasoning on it; and no sane man can do that.

Six of them can talk at once and get along first rate, and no two men can do that.

She can safely stick fifty pins in her dress while he is getting one under his thumbnail.

She is as cool as a cucumber in half-a-dozen tight dresses and skirts, while a man will fret, fume and growl in one loose shirt.

She can talk as sweet as peaches and cream to the woman she hates, while two men would be punching each other's heads before they had exchanged ten words.

She can appreciate a kiss from her husband seventy-five years after the marriage ceremony.

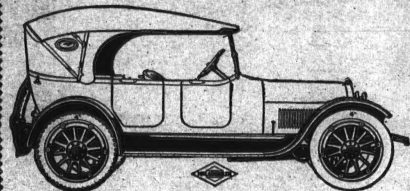

She can go to church and afterwards tell you what every woman had on, and in some rare instances can give a faint idea what the text was.

She can walk half the night with a sickly infant in her arms without once expressing the desire to murder the infant.

## Counter Check Books

The 'IMPERIAL' is the best that can be obtained. We supply The Pass. Let us show you Samples and quote Prices

### Good Roads A Necessity

Canada, and especially that greater and new Canada comprised within the three Prairie Provinces of the West, have numerous problems to work out in order to promote the development of our great natural resources, encourage immigration and permanent settlement on the land, ensure the prosperity and comfort of the people, and attract visitors from all parts of the world. To solve these many problems will require patience, courage and capacity on the part of Governments, municipalities and people, as well as large annual expenditures of money.

It is important, therefore, that all works inaugurated should be, as far as possible, of a permanent character, well planned, scientifically constructed, and their upkeep and efficiency maintained. In this article it is not the intention to deal with more than one of these many and diversified problems. Some people may think the creation of good roads is not the most pressing of Western problems, but few, if any, will deny its importance.

During the past half century Canada has been busy building railways, an enormous and burdensome task in view of the magnificent stretches of territory that had to be covered, with great barren spots like the north shore of Lake Superior and the mountains of British Columbia to be bridged, with many and great rivers to be spanned, and with but a small population to bear the expense and provide traffic for the completed lines. It is not to the discredit of Canada, therefore, that in this Dominion less attention and money has been devoted to good road building than in true of other countries.

With the advent of the automobile, and its general adoption for both passenger and freight carrying purposes within the past two decades, a revolution has been worked in the primary means of transport, and what was regarded as a good road a few years ago will not, under modern conditions of automobile traffic, stand the strain. The time has come, therefore, when the people of Western Canada must face the necessity and the expenditure involved in abandoning the old dirt roads and creating permanent highways. To continue spending large sums of money annually on dirt roads is now a wasteful procedure, because the cost of upkeep in a few years, equals, if it does not exceed, the original cost, and if the roads are not maintained the whole expenditure is waste.

The magnitude of the task may be judged from a few Saskatchewan figures. There are over 200,000 miles of road in that Province. A Government survey of the Province has established the fact that there is little stone available for crushing to be used as macadam; suitable sand and gravel deposits are few and far removed in most cases from where it would be required in road construction. On the other hand, Saskatchewan has, now over 52,000 licensed automobiles, and the number is increasing every week, fully two-thirds of which are owned by farmers. The Provincial revenue from license fees

totals from \$750,000 to one million dollars a year. The situation in Saskatchewan is proportionately true of the other Western Provinces.

The automobile is no longer a luxury but a necessity, but its value to the farming community of the West depends largely on good roads. The old-style dirt road will not suffice. After a rain they are useless and the automobile is tied up. In winter they frequently become impassable. Permanent roads would be available rain or shine, while in winter, with our comparatively light fall of fine, dry snow, the roads generally would be swept clean by the winds.

Then there is the saving of time, gasoline consumption, wear and tear which comes with good roads. The problem of getting to market for supplies and repairs, and from the farm to market with produce, is essentially a farmer's problem. In many cases his success in solving it determines the amount of his year's profits. A large motor truck manufacturing concern in the United States recently made a series of tests to determine just how much gasoline and time was wasted during a trip over unimproved highways. A two-ton truck started under capacity load. It travelled ten miles—about the distance "to town,"—and back again. It was over an average country road with dirt, sand and gravel predominating. During this ten-mile trip, two gallons and one-half pint of gasoline were consumed. But in covering the same distance over hard-surfaced roads, the motor required only one gallon and one quart, a saving of almost a gallon. It also took the truck forty-two minutes longer to make the trip over the unimproved road.

Multiply this saving by the number of trips made during a season, and it is easy to see how good roads regulate the farmer's bank balance. It ought to be sufficient to convert every Western Canadian into an enthusiastic good roads booster.

**Goodbye to Asthma.**—Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their hearts for escape as from a tyrant. Never do they know when an attack may come and they know that the struggle is aided in vain. With Dr. J. H. Kellogg's Asthma Remedy at hand, however, they say goodbye to their enemy and enjoy life again. It helps at once.

### Beast Of Mystery

For London Zoo

**Combines Traits of the Horse, Giraffe and Zebra**

London.—Europe is to have a real life-keeps for its very own. The mysterious animal, which combined the traits of the horse, the giraffe and the zebra, is on its way to London zoo.

The first European to get a glimpse of the elusive creature is said to have been Mr. Jeannett, a young Swiss in the service of the Congo State, who was supervising road-making when he shot the animal, but only being wounded, the okapi made its escape back into the Congo forest.

Sir Harry Johnston, administrator of the Uganda protectorate, devoted much time to the search for it. He entered the Congo forest, but the atmosphere was unbearable, owing to the swarms and the smell of decaying animal and vegetable matter in the heart of the tropics. The expedition had to turn back without the okapi. One, however, has been recently secured alive, and it is hoped that it will be seen in Great Britain shortly.

"Pat, here's the dollar I borrowed of ye last wake."

"Bead, Mike, I'd forgot all about it."

"Och, why the devil didn't ye say so?"

It is a good thing for some people that the necessities of life do not include brains.

### The Iron Road In The Wilderness

Another Example of Eastern Conservation as Invaded by Occidental Ideas

In laying the last tie in its railway link connecting Jerusalem and Suez, the British Government admittedly has, of course, not exhausted the possibilities of obtaining speedy passage over this historic wilderness. When an aeroplane undertakes to soar from Mecca to the isthmus, as will inevitably soon be the case, the reckoning in days may well be reduced to a matter of hours; yet even the time now required—approximately five days—is shorter than was ever hoped for in the days when caravans alone plied the desert fastnesses of Sinai. There is another example of eastern conservatism as invaded by occidental ideas—a land of natural barriers, difficult to surmount in the twentieth century as in the time of Moses, has awaited the latter-day Aryan and his famed steel, Suez, before yielding to the demands of progress.

### BABY'S GREAT DANGER DURING HOT WEATHER

More little ones die during the hot weather than at any other time of the year. Diarrhoea, dysentery, cholera infantum and stomach troubles come without warning, and when a medicine is not at hand to give promptly, the short delay too frequently means that the child has passed beyond aid. Baby's Own Tablets should always be kept in the house where there are young children. An occasional dose of the Tablets will prevent stomach and bow troubles, or if the trouble comes suddenly the prompt use of the Tablets will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Women Work On Nets

Receive 50 Cents for Each Box Spread on Reel

Portland, Me.—It would appear that every line of labor is open to women. They are now seen on the wharves in this city as gill-net spoolers. Each day, after a trip to the fishing grounds, the gill-nets have to be dried, and these reels are so arranged that the nets lie across them and are wound up similar to piece of thread on a spool. In fact, they are gigantic spools. One reel will hold a great many nets and are ready for use again in 24 hours. Women are now doing this sort of work. Many of them are wives of local fishermen. They receive 50 cents for each box of gill-nets which they spread on the reel. The women average from \$4 to \$4.50 a day.

No one need endure the agony of corns with Holloway's Corn Cure at hand to remove them.

### Farm Loans in Saskatchewan

Farmers in Saskatchewan located in all parts of the province have been loaned \$2,500,000 by the Saskatchewan Farm Loans Board since it started operations in the summer of 1917. In these loans more than 1,500 farmers, many living in newly settled districts where the mortgage companies are sometimes reluctant to make loans, have participated. The money derived from the loans is being used for breaking land, erecting buildings, and securing livestock.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powder will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worm-worm infant.

### Will Resume Trade With Germany

Canadian Trade Mission States That License Has Been Issued

Ottawa.—Trade with Germany and German-Austria is now allowed and a cablegram recently received from the Canadian Trade Mission in London, states that a license permitting trade with the enemy has been issued by Great Britain, and that goods not on the conservation list are allowed to be shipped without individual export licenses.

Information comes at the same time from the Trade Commission at Washington, to the effect that a general enemy trade license is being issued in the United States Government, enabling "all persons to communicate and trade with persons residing in Germany." Hungary and Bolshevik Russia are not included in the permission.

Water on the brain is seldom due to a thirist for knowledge.

W. N. U. 1275

### City Of Orphans Is Being Founded

Will Be Inhabited by Syrian Children Left Destitute by Turkish Massacres

New York.—The City of Orphans is the name of a town in Syria, which will be inhabited by the Syrian children left destitute by the Turkish massacres and the ravages of war. Already the children are being brought together in temporary orphanages by the American committee for relief in the Near East.

Bayard Dodge, who recently returned from six years of relief work in Syria, said that even if the best and wealthiest government in the world took over Syria, it could not care for the orphans properly, since this is not so much a matter of relief as of reconstruction.

"The true horror of the famine, in Syria," he said, "has been the moral breakdown. The horror of having thousands of neglected children growing up without homes or education, the victims of a demoralized environment, is awful to contemplate. In the small area of Syria for which I compiled statistics there are 349 villages, with 4,364 orphans and 9,688 children with only one parent."

Mr. Dodge outlined the plan of Dr. Stanley White and Maj. James H. Nichol, who have been in charge of local relief work by the Red Cross and the Near East committee. They intend to train a number of native children as farmers, mechanics, clerks, artisans, and industrial laborers, thus forming a nucleus for further educational work in the generation upon which will fall the responsibility of creating a new nation.

As far as possible the children will be trained as Syrians. The American influence will be strong enough to develop efficient management and high ideals, but not so strong as to breed dissatisfaction or lack of patriotism. The committee in Beirut hopes to limit the number of children to 5,000, to group them into small families with self-government, to teach them useful trades, and to bring representatives of different sects together.

A site will be chosen for the City of Orphans, small houses will be built so that they may be sold after 10 or 15 years, and American child experts, physicians and teachers will be obtained to direct the work.

**Turned to Account**  
She (savagely): "Sir, I understand you said I had a face that would stop a clock."

He (calmly): "So I did. Any well-regulated clock would stop and hold up its hands in admiration at the sight of your lovely face."

A warship goes on a whaling voyage when it starts out to whip somebody.

Minard's Liniment Cures Garget in Cows.

### Rights Of Provinces

Three Important Test Cases Are Before Privy Council.

London.—Three petitions for leave to appeal involving important questions, whether the company's acts of Manitoba, Saskatchewan and Ontario are intra vires of the provinces, were before the privy council. Before council opened their addresses, Lord Haldane intimated on behalf of the privy council that their lordships were ready to grant relief and expressed the desire that all three appeals be consolidated and only one set of arguments be heard. Counsel promised to arrange this.

**Always**  
"Edith is one of those girls whose interest in a man is governed by his wealth."

"I see; the greater the principal the greater the interest."

With some men swearing off is a continuous performance.

### CURES A COLD QUICK AS WINK!

Easy as Rolling Off a Log to Stop a Cough or Cold With "CATARRHOZONE"

No more medicine for the stomach—that isn't where your cold is lodged. Just breathe the vapor of Catarrhazone—a soothing, healing medication that acts instantly. Colds, coughs, catarrh fairly flee before Catarrhazone.

Every spot that is congested is cooled, irritated is soothed, away, phlegm and secretions are cleaned out, and all symptoms of cold and catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhazone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhazone. All dealers sell Catarrhazone, large size, which lasts two months, price \$1.00; small size, 50c; sample size, 25c.

### Vacation Days

Take Along a Gillette

**FOR** the Gillette owner, life is one long holiday from stropping and honing. It is a round of daily luxurious shaves. The shaving quality of the hard-tempered, keen and lasting Gillette Blade is a never failing source of satisfaction.

You, who are planning a vacation, should include one pleasure you can enjoy twelve months each year—buy a Gillette Safety Razor. Free your holiday from strops and hones.

The new Kit Set—the Pocket Edition Gillette Safety Razor—in a limp leather roll case, complete with twelve double-edged blades and a mirror, takes only a few inches of space in your kit.

Remember how the Gillette was the choice of the soldiers of all the Allied armies. You will need a Gillette to remove your open-air growth of beard.

THE PRICE IS \$5.00

### Clear the Skin

A beautiful complexion is the outward mark of good blood and a healthy body. When the stomach, liver and blood are in good order, the skin is clear and lovely. Unsightly blotches, pimples, eruptions and sallowness show the need of Beecham's Pills to stimulate and regulate the vital organs and improve the circulation. Good health and better looks soon follow the use of

**BEECHAM'S PILLS**  
are worth a guinea a box

Sold everywhere in Canada and U.S. America. In boxes, 25 cents.

### Work On Stockyards

Alberta Company to Spend \$300,000 on Yards at Calgary.

J. M. Cameron, president of the Alberta Stockyards company, has announced that the company has started improvements in the yards, and on the erection of a modern office building, and will spend this year between \$250,000 and \$300,000.

The yards will be extended and new pens erected, and all the work done will be strictly modern and up-to-date. The yards will be paved and sewerage put in, and the older portion of the yards will be modernized as far as possible.

### TIGHT MONEY PINCHING MANY

Thousands more are being squeezed by aching corns which can be cured quickly with Putnam's Corn Extractor. Being free from caustics, Putnam's is painless. Used successfully for fifty years. Use no other, 25c a tin, dealers.

### Diplomacy

This story is credited to John Burroughs: "The Germans are the ticklest people in the world. A German at a dinner party took in a lady whose name he didn't catch. During the fish course he saw a man who had showed him up the week before in a crooked business deal, and he muttered to the lady, ferociously: 'Do you see that man to the left of the epigone? Well, if there's one man on earth I hate, it's him.'"

"Why," said the lady, he's my husband."

"Yes, of course," said the German, "that's why I hate him."

**Investigate Arrest of Hon. W. Scott.**  
Ottawa.—Sir Robert Borden, it is understood, is communicating with the British embassy in Washington requesting that enquiry be held into the arrest of Hon. Walter Scott, ex-premier of Saskatchewan, by a United States immigration official. Mr. Scott has protested to the prime minister against the treatment he received.

### A Million Dollar

Farming Concern

The Noble Foundation, the name under which the concern of which C. S. Noble, the celebrated Alberta wheat grower, is the head, is now a million dollar corporation, its capital having been increased from \$750,000 to this figure. This company is farming between twenty and thirty thousand acres in Southern Alberta, growing all kinds of grain, and this year has about twelve thousand acres in crop.

Minard's Liniment Cures Distemper.

### To Increase Wireless

United States Likely to Establish Radio Stations to Relieve Congestion.

Washington.—The request of Secretary Daniels that congress authorize powerful naval radio stations for commercial messages seemed to meet general approval in the house as the secretary's letter was referred to the naval affairs committee. Chairman Butler stated he believed it would prove to be the only way of reducing congestion on the cables.

Two miners went on a fishing expedition. But they were novices at the game. "Hoo are ye gettin' on, Jock?" asked one.

"Och, simply rotten!" was the reply. "I don't believe my bloomin' worm's trying."

Many people seem to think that reform spells reform.

### CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found in pamphlet. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties.

Do Not Miss the Chautauqua—August 12th to 18th

## Of Local and General Interest

Mr. Stainton, Dominion fire underwriter, was in town today.

Secretary Wright is enjoying a brief holiday in the Nelson district. We understand that a strong O. B. U. vote was cast at Bellevue yesterday.

Miss Dorothy Graham, of Coleman, is visiting with the Misses Pelletier, at Pincher Creek.

Already a local guy has received a note warning him to keep away from the she-tanqua artists.

At the regular meeting of Crowview Rebekah Lodge tonight, three candidates are to be initiated.

A special meeting of the town council was held to-night, when it was decided to collect license from Chautauqua.

Twenty-five lives are believed lost in a collision on the Atlantic between an ore-laden steamer and a sailing vessel.

Constable O'Halloran, of the A. P. P., has been relieving Corp. Rogan at Pincher Creek while the latter has been enjoying a holiday.

See the big bills turned out by us this week for Muggs. Haddad Bros. at Bellevue. They are conducting a mammoth hard-time sale.

Miss Marian Johnson, of the Ellison-White Dominion Chautauqua, arrived here on Wednesday morning to superintend the local Chautauqua.

Mr. and Mrs. MacAdam, of the Bellevue branch of the Union Bank, returned last week-end from a visit to Calgary, where Mr. MacAdam attended the meeting of bankers.

Miss Jarvis, who last year looked after the interests of the Ellison-White Chautauqua here, paid Blairmore a brief visit on Wednesday, and left for Nelson on Thursday morning.

At a recent meeting of the Pincher Creek council, that body decided to tax Chautauqua a \$150 license, and at a later meeting they voted to refund the \$150 to the Chautauqua committee.

In rubbing down the Blairmore baseball team and the umpire system, the Cowley correspondent to the Lethbridge Herald forgot to state that Cowley's team was 33 1/2 per cent. Macledities.

Only two classes of food dealers now remain under license by the Canada Food Board. These are millers of all classifications and packers whose turnover is above \$750,000 annually.

A grand baseball tournament will be pulled off at Blairmore on August 20th in which it is expected that teams from Fernie, Michel, Pincher Creek, Cowley and Blairmore will compete. Each team will require to be made up of boys from the home towns.

A local guy stopped the doctor on the street the other day, about two hours after the "blind pig" had been raided, and pleaded for a prescription. On being asked by the m. o. what his complaint was, he replied, "Meesa, doc, mine corn all a same sore—me lose me appetite—hab drink much. Oh my god a doctor help me."

A newspaper is in no sense a child of charity. It earns twice over every dollar it receives, and it is second to no enterprise in contributing to the upbuilding of a community. Its patrons reap far more benefits from its pages than its publishers, and in calling for the support of the community in which it is published, it asks for no more than in all fairness belongs to it, though generally it receives less.

About thirty men are now employed at the local cement plant.

McDermott & Morgan have just opened a spacious new garage at Pincher Creek.

Sergt. Charles Murdoch and bride arrived at Pincher Creek last week from overseas.

Workmen in the Rome iron foundries to the number of 15,000 have struck for higher wages.

Lieut. C. H. Kerr, of the Frank Military Hospital, is visiting for a few days at Nelson and Balfour.

Lingersoll Encampment, I.O.O.F., at Detroit, has during its life of fifty years initiated 2,200 members.

CAR WANTED—Must be in first-class shape and big bargain. Will pay cash. Apply to box "E", Blairmore.

An exchange says that some union men who go into business for themselves are much in favor of a forty-eight hour day.

Many young ladies have adopted the custom of wearing their watches just below the knee instead of on the wrist. The fad is an excellent protection against pick-pockets.

Down in the village of New York the ladies are wearing 75 per cent. heels. They reach up to about four feet from the shoulder and are not so tall that a man couldn't look over them.

There were more "strikes" called in Cowley on Sports Day than have been called in the rest of the Dominion of Canada in the last fifty years—and they were actual and dead-in-ear strikes, too.

Dr. Olivier has purchased the property on the corner of Eighth Avenue and State Street, formerly occupied by the A. P. P. as a barracks. The doctor intends to make considerable improvements before moving there to reside.

The question was asked why aviation could not be carried on day and night between the three western provinces. The time table should provide for passage over the Crow at night, because, judging from the prevalence of moonshiners, our nights are as bright as day.

An Austrian started out from Blairmore prairie-roads the other evening, and carried in his "personal effects" a bottle of booze of the "made in Blairmore" variety. He was grabbed by the police and taken off the train at Frank. Tried at Coleman the following day he was relieved of 125 and odd dollars.

Labor Day sports at Coleman promise to be of unusual interest. The programme includes a prize list totalling one thousand dollars for the following and other events. Baseball, football, freemen's, veterans', ladies', children's, obstacle, novelty, bicycle and foot races, and golf and tennis tournaments.

There will be a grand parade of school children headed by the 113th Pipers' band of Lethbridge. A special train will leave Lethbridge to arrive at Coleman about noon, bringing about 1,500 people, mostly veterans and their families. A special prize of a sack of flour will be awarded the largest family on the grounds, and prizes will also be awarded for the best float and best decorated automobile. Coleman city band will be in attendance during the day to keep the atmosphere stirred up. At night a grand ball will be held in the Coleman Opera House. The surplus proceeds will be handed over to the Crow's Nest branch of the Great War Veterans' Association. Mr. James Emmerson fills the office of secretary of the managing committee.

## The Wants of Man

"Man wants but little here below,  
Nor wants that little long."  
"It's not with me exactly so;  
But 'tis so in the end."  
My wants are many and, I hold,  
Would number many a score.  
And were each wish a mist of gold,  
I still should long for more.

I want (who does not want?) a wife—  
Affectionate and fair;  
To voice all the woes of life,  
And all its joys to share.  
Of temper sweet, of yielding will,  
Of heart as true as steel;  
With all my faults to love me still  
With sentiment refined.

I want a warm and faithful friend,  
To cheer the adverse hour;  
Who ne'er to flatter will descend,  
Nor bend the knee to power.  
An honest soul, a true friend,  
My friend and comrade true;  
And that my friendship prove as strong  
For him as for me.

I want the scale of power and place,  
The ensigns of command;  
To rule my native land,  
To rule my native land.  
To rule my native land, I ask  
My last great want—absorbing all!  
In, when beneath the soil,  
And summoned to my final call,  
The Mercy of my God.

John Quincy Adams,  
Washington, August 31, 1843.

These are the Wants of mortal man,  
I cannot want them long.  
For life itself is but a span,  
And ends with a song.

My last great Want—absorbing all!  
In, when beneath the soil,  
And summoned to my final call,  
The Mercy of my God.

John Quincy Adams,  
Washington, August 31, 1843.

## An Aviator's Compass

When an aviator gets into a fog his position is perilous. Since he cannot see the ground he doesn't know whether he is on an even keel or not. He may even be known to fly upside down for a short time and not know it.

Dr. James Pentz, of New York, has invented a compass that not only tells the aviator his north and south, but also tells him whether he is upside down. The compass card rests freely on a glass globe. Liquid will not stand on its head for any length of time, but will settle down in the position gravity meant it to.

In his first attempt Dr. Pentz attached the compass card to the globe, which deprived it of the necessary freedom. He complained of this to his sympathetic wife, who pulled a hairpin from her hair, drove it into a cork, and floated it, thus helping to solve the problem.

## One Effect of Prohibition

As an evidence that New York has accepted prohibition with fervor, or that its citizens, for one reason or another, were exceptionally thirsty on July 1, the chief statistician of the water department bureau announced that 23,000,000 more gallons of water were consumed on the birthday of the great drought than on June 30. The figures for the municipal water supply were 637,000,000 gallons on June 30, and 660,000,000 gallons on July 1.

Two Young Ladies Wanted to call in every home in your district. Pleasant work and large returns to retail workers—J. D. H. Bousquet & Associates, Edmonton, Alta.

A Joe Handley down in North Sydney was found guilty of stealing \$350 from another man. The Joe Handleys in the west never do the like of that.

Three gasoline launchers were captured on the coast of Newfoundland while in the act of smuggling liquor in from St. Pierre. Their cargoes were valued at \$75,000. The men in charge of the launches were fined \$400 and costs, and the liquor was confiscated to be destroyed.

Capt. Hoy's bi-plane, the J. N. 4, passed over Blairmore at five o'clock this evening enroute to Calgary from Vancouver, and reached Calgary in a little better than sixteen and a half hours, being the first flying machine to cross the Rockies. People of this district obtained a splendid view of the speeder, which travelled so low the chickens of all varieties sought refuge under cover, and we were obliged to get down on our knees to save our cranium.

MARY McKINNON  
Noted Canadian Pianist Appearing  
With Anthony Guarino.

Owing to the prevalence of mosquitos, the ladies of the South Fork are very sorry to learn that short skirts are again becoming fashionable.

More sweat has been lost in Blairmore this week than in any other week during the last three months, owing to the fact of the arrival of Simpson's fall catalogues.

WAR VETERANS WANTED in every district to represent our firm. Experience unnecessary. Pleasant work and liberal pay to live wires—J. D. H. Bousquet & Associates, Edmonton, Alta.

At Bellevue a small faction of workers have organized a branch of the U. M. W. of A., while the rest of the workers of that small community desire to be known as representatives of the O. B. U.

Evidence from enemy allies, who but a few months ago Canadians were compelled through principle to fight, is being accepted today by the department of the attorney general to convict British born Canadians for infraction of the Alberta liquor act.

Rod McDonald was the victim of a lightning stroke on Sunday evening last. He was visiting a sick friend at Coleman and was in the act of pulling down the window blind when a stroke glanced through his arm, severely burning his wrist and marking the flesh in several places towards the chest.
